The following additional software was required to achieve this certification:

- MedlinePlus
- MaxMD
- Dynamic Health IT ConnectEHR with Patient Portal
- HL7 SDK
- Ionic.Zip
- Meinberg NTP
- Microsoft SQL Server 2008 R2

ONC requires the disclosure of any additional types of costs that an Eligible Provider, Eligible Hospital, or Critical Access Hospital would pay to implement the certified product's capabilities in order to attempt to meet meaningful use objectives and measures. (EHR technology self-developers are excluded from this requirement).

The following information was submitted as required attestation:

Certification for PI EMR 2.0 was officially achieved on December 22, 2014. A formal ICSA Labs certificate indicating that PI EMR has achieved certification is attached.

Because your EHR technology has achieved certification you may begin using the ICSA Labs ONC-ACB Certified Logo and the ONC Certified HIT mark in accordance with their respective Logo Usage Guidelines and Terms and Conditions. If you are planning a press release, ICSA

Labs requires an internal P.R. and Legal department review of the document. Please submit a draft press release for review as soon as possible, as the review can take up to 5 business days. See below for links to the additional files and information.

Please note that the Department of Health and Human Services and the ONC maintain that companies must adhere to the following guidelines with regards to the certified product per the information specified at 45 CFR 170.523:

> All certifications must require that a Complete EHR or EHR Module developer conspicuously include the following text on its website and in all marketing materials, communications statements, and other assertions related to the Complete EHR or EHR Module's certification:
>
> "This [Complete EHR or EHR Module] is 2014 Edition compliant and has been certified by an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services"
>
> AND
>
> a. The vendor name
> b. The date certified
> c. The product name and version
> d. The unique certification number or other specific product identification
> e. The clinical quality measures to which a complete EHR or EHR module has been tested and certified
> f. Where applicable, any additional software a complete EHR or EHR module relied upon to demonstrate its compliance with a certification criterion or criteria adopted by the Secretary
> g. Where applicable, the certification criterion or criteria to which each EHR module has been tested and certified and
> h. Any additional types of costs that an Eligible Provider, Eligible Hospital, or Critical Access Hospital would pay to implement the Complete EHR's or EHR Module's capabilities in order to attempt to meet meaningful use objectives and measures. EHR technology self-developers are excluded from this requirement.
